Research Program

My research program is grounded in Learning Sciences and sits at the intersection of design, collaboration, and computing. I design and study learning ecologies, including those supported by AI and other emerging technologies, to make high-quality collaboration and disciplinary computational practices teachable, observable, and sustainable in classrooms, teacher preparation, and professional development. Building on my longstanding work in computer-supported collaborative learning, I investigate AI agents as participants in disciplinary, collaborative activity as collaborators, mentors, peers. Three interconnected strands organize this program: (1) **high-quality collaboration**, examining how collaborative competence develops, what models of collaborative quality capture or miss, and how participation and trust are supported in collaborative learning and co-design; (2) **AI agents as participants in learning ecologies**, investigating their designed roles and how human-AI interactions shape reasoning, learning, and agency; and (3) **disciplinary computational practices**, examining how computational thinking, data practices, and AI literacy are learned, enacted, and assessed within subjects. Across these strands, I operationalize theoretical frameworks in learning designs and analytic tools, using evidence of participants' activity to refine both the designs and theoretical accounts of practice. This program is supported by a growing portfolio of internal and external funding, anchored by an NSF CAREER award that advances this agenda through sustained design-based research in STEM learning environments.

Education

- Ph.D. in Learning and Performance Systems**, The Pennsylvania State University 2021
Emphasis: Learning Sciences
Dissertation: Shared meaning making around charged topics: Developing and operationalizing a theory for multicultural collaborative competence
- M.S. in Computer Education and Instructional Technology**, Middle East Technical University 2015
Thesis: A proposal of an instructional design model for gamified learning environments: GELD model
- B.S. in Computer Education and Instructional Technology**, Middle East Technical University 2011
- Certificate Program, Information Design**, FH JOANNEUM – University of Applied Sciences 2010

Professional Appointments

- Assistant Professor**, Texas A&M University Aug 2023 – Present
Department of Teaching, Learning, and Culture, College of Education and Human Development
- Postdoctoral Research Fellow**, University of Pennsylvania Aug 2022 – Jul 2023
Teaching, Learning, and Leadership Division, Graduate School of Education
- Postdoctoral Research Associate**, University of Connecticut Oct 2021 – Aug 2022
Department of Educational Psychology, Neag School of Education

Research Associate , The Pennsylvania State University The Collective Cognition and Design Group	Aug 2017 – Oct 2021
Graduate Research Assistant , The Pennsylvania State University Teaching and Learning with Technology (TLT)	Aug 2018 – Oct 2021
Graduate Research Assistant , The Pennsylvania State University World Campus	Aug 2015 – Jun 2018
Graduate Administrative Assistant , Middle East Technical University Instructional Technology Support Office	Dec 2012 – Jul 2015

Curriculum Design and Development

LDTC 649: Teaching and Learning with AI , Texas A&M University	2025 – 2026
– New Course Design; Asynchronous; Master's Level (2025)	
– Course Redesign; Face-to-Face; Doctoral Level (2026)	
Sustainable Agriculture Curriculum Unit , Texas A&M University & Two Rural School Districts	2024 – 2026
– New Curriculum Unit Design; Grades 7–8	
– Co-Design with Rural Agriculture Teachers; Implemented with Approximately 240 Students	
AI Literacy Module for Teacher Preparation , Texas A&M University	2024 – 2026
– New Module Design; Two-Week Module; Preservice Teachers	

- Computational Thinking through 3D Game Design**, Texas A&M University 2024 – 2025
 – Module Redesign; Three-Week XR-Enhanced Maker Module; Preservice Teachers
- CEIT 323: Instructional Technology and Material Development**, Middle East Technical University 2014 – 2015
 – Course Redesign; Preservice Teachers
- Professional Development Program on Instructional Technologies**, Middle East Technical University 2013 – 2015
 – New Professional Development Program Design; University Faculty and Staff

AI-Supported Learning Systems and Agent Development

- AI Peer Mentor and Agent Design Framework for Disciplinary Computational Practices in Problem-Based Inquiry** 2025 – Present
 – Design Framework and Technical Infrastructure for AI Agents Supporting Disciplinary Computational Practices in Problem-Based Inquiry
 – Persona-Based Pedagogical Framework in Which Agents Assume Distinct Roles Across Phases of the Inquiry Unit; Prototyped in Google AI Studio and Deployed in Middle School Classrooms
- Conversational AI Agents for AI-Guided Teacher Professional Learning** 2025 – Present
 – Co-Developed Conversational AI Agents in Hugging Face for Creativity-Directed Professional Learning with Preservice Mathematics Teachers
 – Agent Instructions Encode Module-Specific Pedagogical Specifications Authored by the Subject-Matter Expert (PI) and Guide Teachers Through Module Tasks

Mentoring

CoHALE Lab team	One postdoctoral researcher (2025–2026), two doctoral students, one master’s student, and two undergraduate researchers.
Areas of mentoring	Establishing and sustaining school partnerships; designing and implementing interventions in classrooms; collecting and analyzing multimodal data; writing and disseminating scholarship.

Honors, Awards, and Fellowships

Awards and Recognition

Reviewer of the Year , <i>Journal of the Learning Sciences</i>	2026
McJulien Scholar Best Paper Award , Culture, Learning, and Technology Division, AECT	2022
ISLS Early Career Symposium , International Society of the Learning Sciences (\$4,000)	2024
NSF ECR Funding PI Meeting, Prospective PI (Invited) , NSF ECR Hub (\$2,000)	2024
Simon Initiative LearnLab Summer School Award , Carnegie Mellon University, LearnLab (\$250)	2021
Annual Meeting Registration Award , International Society of the Learning Sciences (\$125)	2021
Innovative Practices: CSCL in a Time of Crisis, “Learning Together Online” , ISLS & Network of Academic Programs in the Learning Sciences (NAPLeS) (\$800)	2020
Outstanding Service Award , DDL Communication Officer, Division of Distance Learning, AECT	2020
Early Career Symposium , Division of Research, Theory and Development, AECT	2020
Best Qualitative Article Award (2nd place) , Division of Distance Learning, AECT	2018
McJulien Graduate Student Award , Culture, Learning, and Technology Division, AECT (\$500)	2018
Annual Meeting Registration Award , Division of Organizational Training and Performance, AECT (\$165)	2018
Outstanding Service Award , OTL SIG Newsletter Content Editor, Online Teaching and Learning SIG, AERA	2018
Lee W. Cochran Internship , AECT Leadership Development Internship Program (\$1,500)	2017
Conference Internship , Pennsylvania Educational Technology Expo and Conference (PETE&C) (\$1,000)	2016

Fellowships and Scholarships

Miriam E. Gray Scholarship , College of Education, The Pennsylvania State University (\$2,400 per year)	2016 – 2020
Graduate Fellowship , World Campus, The Pennsylvania State University (\$38,000 per year)	2015 – 2018
“Pervasive Networks and Service Infrastructures” Programme , Technological Educational Institute of Crete, Greece; funded by the State Scholarships Foundation of the Greek Ministry of Education under the ERASMUS Lifelong Learning framework (€2,500)	July 2013
Erasmus Student Exchange Program Fellowship , European Union (€2,000)	Spring 2010
